### Installation Instructions

## QUICK INSTALLATION GUIDE OF NJ-23021

Under Counter Slides, 50 pound (22 kgs) loading

**READ THE QUICK INSTALLATION GUIDE FIRST BEFORE INSTALLATION**

- A. Recommended screws for fixing – flat head 6mm euro system screw or #8 pan head screws. Each side of slide requires at least 7 screws
- B. Make sure that you have all the slide parts in place. One pair of slides, 4 L shaped brackets and 4 M4 screw ( to attach brackets to the slides )

## Step 1 > Install drawer member to the keyboard shelf

Press the release latch to disconnect the drawer member. **(Figure1-1)**

Align the center line of drawer member to the center line of keyboard shelf. **(Figure1-2)**

Affix the slide member with at least 3 #8 screws.

## Step 2 > Install cabinet member to the desk bottom

Insert the drawer member mounted shelf into the slide cabinet member in order to determine the location of L shaped brackets. **(Figure2-1)**

Select a preferable L shaped bracket direction ( inboard or outboard ) and height ( 62.25 mm~95.85 mm ), and secure it onto the cabinet member with M4 screw.

Attach the brackets to the desk bottom and screw them with 2 #8 screws per bracket. **(Figure2-2)**

### Final Adjustment.....

Try to open and close the drawer to see if lock open and slides function correctly. If so, secure the screws and install additional screws as necessary.

※This instruction is for reference only. It may vary due to different applications.
